We believe that in natural fertility of soil, durability, and in number of bushels of grain produced by the acre, this land will not suffer in comparison with any in the State. #### One of the Frauds.

The spirit in which the Opposition conduct this canvass is well illustrated by the following charge against Mr. Buchanan : BUCHANAN'S VOTE .- The following resolution was

introduced by the Hon. W. C. Rives, of Virginia, in-

to the United States Senate, on the 11th of January, 1838, against which James Buchanan, of Pennsylva-" Resolved, That any interference with the subject of slavery, in the Territories of the United States, in which it may exist, is inhibited by all the considerations in regard to the rights and interests of the inhabitants of the said Territories, the security of the slaveholding States, and the danger to the Union, which are mentioned in the preceding resolution, as fordidding any interference with, or action on the subject of slavery in the District of Columbia; and

istence of slavery within their respective limits for themselves. Among those who voted for the resolution on a direct vote, were John C. Calhoun, Alfred Cuthbert, Wilson Lumpkin, and Rives and Roane, of Virginia,

James Buchanan voted against it on a direct vote. Yet Mr. Buchanan is now supported by many Southern men, on the ground that he is a safer man for the South than Mr. Fillmore! Let them examine his record and purge themselves of such inconsistency .- Washington " American Organ."
